A L M A N A C K

For the Year of our Lord 1690.

Wherein all the *Marts* and *Fairs* in *England* and *Wales*, are disposed in an Alphabetical Order in every Moneth, so that both the place where, and the days on which any of them are kept, is immediately found.

Also the *Post Roads*, and their several Branches throughout *England* and *Wales*, with their Distances described in a New Order.

And the Names of all the Market Towns in every County, and the day of the Week on which any of them are kept.

Eikewise a Table of Accounts ready cast up, for the Buying or Selling of any Commodity by Number, Weight, or Measure, from One Farthing to Ten pounds; and of any quantity, from One to Ten thousand.

With other Tables, Rules, and Directions, useful for all Travellers, Tradesmen, or Chapmen of what kind soever.

LONDON, Printed by Tho. James for the Company of STATIONERS. 1690.

A Brief CHRONOLOGY.

THE Conquest of *England* by Duke *William*

The Invention of Guns

The Art of Printing was invented

The infectious Sweating Sickness

The Massacre in *France*

The whole Heavens seemed to burn with Fire

The General Earthquake in *England*

The Camp at *Tilbury* in *Essex*

The Gun-powder Treason

The Voyage to the Isle of *Ree*

The Duke of *Buckingham* murdered

The Plantation began in *New England*

The third part of *London-Bridge* burnt

The Earl of *Strafford* was beheaded May 12,

The *Irish* Rebellion began October 23. 1641.

The Fight at *Edge-hill*, October 23. 1642.

The Fight at *Brainford*, November 12. 1642.

The *Scots* entered *England*, January 16.

The Fight at *Newberry*

Marston-Moor Fight, July 2.

The great Fight at *Naseby*. June 14. 1645.

King *Charles* was murdered, January 30.

The *Scots* routed at *Dunbar*, November 3.

The great Fight at *Worcester*

King *Charles II.* returned to *London*, May 29.

King *Charles II.* was Crowned April 23,

The strong Tempestuous wind, February 18,

Three Blazing Stars appeared

The last great Plague in *London*

A great Fight between the *English* and the *Dutch*

The great Fire in *London*, September 3, 4, 5, 6,

The Duke of *Albemarle* died

The last great Snow 11 days

A great Frost containing 10 Weeks, so that the *Thames* was Frozen over beyond *Graves End*, so that there were Fairs or Markets daily kept, and all manner of Sports and Pastimes exercised upon the Ice, and the Summer following proved a very dry Season.

King *Charles II.* died Feb. 6,

King *James II.* and Queen *Mary* Crowned April 23.

A Table shewing at what hour and minute the Moon cometh to the South, and also how long she Shineth.

In the Fifth Column of the *Almanack*, you have the Age of the Moon against every day in the year. By help whereof and this little Table, you may nearly find,

I. *How many hours and minutes the Moon Shineth.*

II. *At what hour and minute she will be just South.*

III. *At what hour and minute she Rises and Sets.*

IV. *The hour of the Night, by the Shadow of the Moon upon a Sundial.* By the Directions following.

I. To find how long the Moon Shineth.
Example. On the 17 *March* I would know how long the Moon Shineth. The Moon that day is 6 days old: wherefore, find 6 in the first Column of this Table, and against it you shall find 4 h. 48 m. and so long doth the M. shine.

II. To find the time of the Moons coming to the South.
Example. Upon the 10 of *March*, the Moon being 10 days old: Look for 10 days in the third Column of the Table, and against it, in the fourth Column you shall find 8 h. 00 m. so that the Moon will be South at 8 a Clock at Night.

III. To find the time of the Moons Rising and Setting.
 1. If the Moon be less than 15 days old, add the time of her Shining to the time of the Suns Rising, and the Sum will be the time of the Moons Rising.
 2. If the Moon be above 15 days old, take the quantity of her Shining from the time of the Suns Rising, and the remainder will be the time of the M. Rising.

for the Moons setting.
 1. If the Moon be less than 15 days old, add the time of her Shining to the time of the Suns setting, and the Sum shall be the time of the Moons Rising.
 2. If the Moon be above 15 days old, Subtract the Shining from the Sun-setting, adding 12 hours if need be, and the remainder shall be the time of the Moons Setting; *March* 29, the M. will Rise at 10 h. 49 m. and Set at 11 h.

To find the hour of the Night by the Moons Shadow on a Sundial.
Find at what time the Moon comes to the South as before, which known, mark how much the Shadow upon the Dial wants of 12, which take from the time of the Moons coming to the South, the remainder is the hour of the night. But if the Shadow be past 12, add those hours to the coming to the South, and the Sum is the hour of the night.

Example. Upon the 12th of April, the Moon being 13 day old, and comes to the South at 20 h. 24 m. and that night I find the Shadow at 9 h. 30 m. which wants 2 h. and a half of 12, wherefore take 2 h. 30 m. from 10 h. 24 m. and there will remain 7 h. 54 m. for the hour of the night ---- But if the Shadow had been 2 h. 30 m. after 12, those added to 10 h. 24 m. would make 12 h. 54. m. for the hour of the night.

Prestaine, *S.*

Those highly approved, and only true Spirits of Scurvy-Grass, both plain and golden, famous for the Cure of the Scurvy, Drop sic, and several other general Distempers, are exactly and faithfully prepared by Martha Hooker, Executrix of Mr. Robert Bateman, at his House in Pauls-Chain, near Doctors-Commons, London: Price, 1 s. each Bottle, the Bottles being sealed with his Coat of Arms, the Half-Moon and Ermins, with Printed Directions to each Bottle, which is to prevent your being cheated with Counterfeits, which are lately started up, which notwithstanding all the late pretences, our own Experience tells us, that these are the true Spirits.

At the same place is to be Sold by John Hooker, the truly prevailing Elixie Salutis, eradicating and subduing the most dangerous Diseases incident to the Body of Man; as being an Universal Medicine, agreeing with all Complexions, Constitutions, and Ages of all Sexes; and for that purpose more elaborately prepared and rectified than other Elixirs going by the same Name, with Printed Directions for taking it, put in Half-pint Bottles, Price 2 s. in London, and Forty Miles about; and 2 s. 6 d. in more distant places.

A Table of Accounts.

The Use of the Table of Accounts.

This Table will serve for many good purposes, but it is here principally intended for the Chapmans use in Buying or selling of any Commodity by the Yard, Ell, Pound, Hundred, &c. And its use is very easie; as by

EXAMPLE I.

At 9 d. the Yard, what will 70 yards come to?

Look for 9 d. at the head of the Table, and for 70 in the left Row or Column of the same Table, and against 70, and under 9 d. you shall find 2 l. 12 s. 6 d. And so much will 70 yards at 9 d. the Yard come to.

Also, At 5 d. the Gallon, 500 Gallons will come to 10 l. 8 s. 4 d.

And so of any other Price, or any other Number.

But if you cannot find your just Price at the head of the Table, nor your just Number on the side, you must then take it out twice, and adde them together, and the sum shall answer your Question.

EXAMPLE II.

At 7 s. the Dozen of Gloves, what will 78 dozen come to?

l. s.

10 Dozen at 7 s. comes to

24 10

8 Dozen at 7 s. comes to

2 16

The Sum

27 06

So that 28 Dozen at 7 s. the Dozen, come to 27 l. 6 s.

EXAMPLE III.

At 3 s. 5 d. 3 q. the Ell, what will 300 Ells come to?

l. s. d.

300 Ells at 3 s. comes to

10 45

300 Ells at 5 d. comes to

6 5 0

300 Ells at 3 q. comes to

0 18 9

The Price of 300 Ells

52 3 9

EXAMPLE IV.

At 7 d. halspeny the Pound, what will 92 Pound come to?

l. s. d.

90 Pound at 7 d. the Pound, comes to

2 12 6

2 Pound at 7 d. the Pound, comes to

0 01 2

90 Pound at a halspeny, comes to

0 03 9

2 Pound at a halspeny, comes to

0 00 1

The Price of 92 Pound, at 7 d. 2 q.

2 17 6
